

# Muhammad Yusuf

Software Developer

2016 - 2026

## Personal Profile

I am an innovative Software Developer with over 6 years of experience building Web and Mobile applications. Skilled in JavaScript, PHP Laravel, Dart (Flutter), Express.js, Vue, Nuxt and Next.js, with solid knowledge of HTML, CSS, and Bootstrap. I pride myself on being a quick learner with strong analytical skills and a collaborative communication style. My principle: “Keep learning and practicing to produce the best work.”

## How to reach me:

**Call / Whatsapp:**
+62 81283719444

**Email:**
fharzayusuf@gmail.com

**Linkedin:**
https://www.linkedin.com/in/fharza-yusuf-8330aa151/

**Adress:**
Jl. H.Compact, Gang Arus No 19, RT.9/RW 1, Srengseng Sawah, Kec Jagakarsa, Kota Jakarta Selatan, DKI Jakarta

## Education Background

**Universitas Al-Azhar Indonesia**
Teknologi informasi (2010-2015)

**SMA PAMBUDI LUHUR**
IPA (2007 - 2010)

**SMP M 6 Lhokseumawe**
(2004 - 2007)

## Professional Skills

**Programming Languages:**
JavaScript, VueJS, NextJs, PHP, Dart(Flutter), Node.js, and Golang

**Frameworks and Tools:**
NodeJs Frameworks(Express.js, AdonisJs, VueJs, NextJs), PHP Frameworks(Laravel, Lumen), HTML, CSS, Bootstrap, MySql, SqlServer, Mongodb, Visual Studio Code, Android Studio, Xcode,Team Foundation Server, gitLab, gitHub, Trello, Putty, FileZilla, Asana, Jenkins Source Tree, HiediSQL,Docker

## Certificate

1. **General Digital Engine Programming & Orchestration Skill Certificate(Developer Professional) by PT Huawei Tech Investment**
2. **General Digital Engine Programming & Orchestration Skill Certificate(Developer Associate) by PT Huawei Tech Investment**

## Best Develop Features

- Develop App Jatim from Zero
- Develop Feature NFC Tap To Pay
- Develop Feature Flazz BCA
- Develop Feature E-Money and T.Cash
- Develop SMS OTP Permium
- Develop BI Fast
- Deeplink Omni
- Upgrage Framework SDK to latest version
- Develop an eKYC (Electronic Know Your Customer) onboarding process involves

## Career Summary

**PT Infosys Solusi Terpadu | June 2022 - Present (3 Years 5 months)**

IT Staff (Senior Frontend Developer)

### Develop Apps Mobile Android and iOS

7. Project : Bank Jatim Mobile Banking (Jconnect) | January 2023 - Present

- Role: UI Development, API Integration, Mobile App Development from scratch, Maintenance & Feature Updates
- FE Team Size: 3 members
- Platform: Mobile (Flutter)
- Programming Language: Dart (Flutter)
- API Base: Microservices
- Database: Hive (NoSQL, local storage)
- Users: All Bank Jatim account holders
- Link : Not publish yet
- Job Description: Developed a mobile banking application from the ground up, including responsive UI, API integration with microservices, and offline-first local storage using Hive. Implemented advanced features such as NFC e-money integration with BCA Flazz, QRIS CPM, and QRIS Tap.

- Users: All Bank Aceh account holders
- Link : Show link
- Job Description: Developed a mobile banking application from the ground up, including responsive UI, API integration with microservices, and feature BCA Flazz, QRIS CPM, and QRIS Tap aslo BugFixing and last time upgrade SDK framework .

### Develop Web Portal

2. Project : Web Branch and Web Config Portal – JATENG | September 2024 - Present

- Role: UI Development, API Integration, Feature Updates & Maintenance
- Team size : 1
- Platform: Web-based (Vue.js)
- Programming Language: JavaScript (Vue.js)
- API Base: Microservices
- Users: Up to 200 (internal)
- Job Description: Developed and maintained a web application to manage branch-level features of Bank Aceh's mobile banking system. Responsibilities included UI development, microservice API integration, and delivering regular feature updates and maintenance.

## PT Huawei Tech Investment | September 2019 -April 2022

IT Staff (Senior Backend and Frontend Developer)

### Develop Web UI and Service

9. Project : Analysist and Reporting Dashboard | November 2021 - February 2022

- Role : Develop UI and implement API data service and Develop Rest API from zero
- Team size : 2
- Platform : Web Based
- Programming Lang : JavaScript, Ajax, CSS, Bootstrap, API Service
- Web Server : Huawei Server
- Database : -
- Link : -
- No. user : -
- Description : A system for Vendor Huawei.

### Develop Web UI and Service

8. Project : FME Dahsboard | August 2021 - Oktober 2021

- Role : Develop UI and implement API data service from zero
- Team size : 1
- Platform : Web Based
- Programming Lang : JavaScript, Ajax, CSS, Bootstrap, API Service
- Web Server : Huawei Server
- Database : -
- Link : -
- No. user : -
- Description : A system for Vendor Huawei.

### Develop Web UI and Service

#### 7. Project : Autohealing Dashboard | Jun2021 - July2021

- Role : Develop UI and implement API data service and Develop Rest API from zero
- Team size : 2
- Platform : Web Based
- Programming Lang : JavaScript, Ajax, CSS, Bootstrap, API Service
- Web Server : Huawei Server
- Database : -
- Link : -
- No. user : -
- Description : A system for Vendor Huawei.

### Develop Web UI

#### 6. Project : E2E Dashboard | Maret2021 - Mei2021

- Role : Develop UI and implement API data service from zero
- Team size : 1
- Platform : Web Based
- Programming Lang : JavaScript, Ajax, CSS, Bootstrap, API Service
- Web Server : Huawei Server
- Database : -
- Link :Internal
- No. user : -
- Description : A system for Vendor Huawei.

### Develop Mobile App Android and

#### 5. Project : Mateline Google Maps | February2021 - Maret2021

- Role : Develop( Mobile OWS) add map fitur map on app mobiletask
- Team size : 2
- Platform : Web Based
- Programming Lang : Javascript, Map and OWS Huawei(Bankend)
- Web Server : Huawei Server
- Database : -
- Link :Internal
- No. user : -
- Description : A system for get and set location on page CP/FD Position

### Develop API Service

#### 4. Project : FRS Integration OWS CTC & FMT v1.0 | Desember2020 - January2021

- Role : Add new function on update from Customer Complaint Operation Adjustment
- Team size : 1
- Platform : Web Huawei
- Programming Lang : JavaScript, API Service
- Web Server : Huawei Server
- Database : -
- Link :Internal
- No. user : -
- Description : A system for mapping alarm impact to Ticket

### Develop Mobile App Android and

#### 3. Project : Custom Mateline X to Netwok Ops | November2020 - Desember2020

- Role : Cutomization Mobile Apps Android change UI and asset
- Team size : 1
- Platform : Mobile Huawei
- Programming Lang : Android native, JavaScript,
- Web Server : Huawei Server
- Database : -
- Link : Internal
- No. user : -
- Description : A system for access to mobile app without ID under Huawei

### Develop Mobile UI (Flutter) and API Service

#### 2. Project : RO Care | February2020 - September2020

- Role : Developer( Backend and FrontEnd ) from zero
- Team size : 3
- Platform : Mobile Apps
- Programming Lang : Flutter(Frontend), OWS Huawie Platform(Bankend Javascript) Rest API Lumen
- Web Server : Huawei Server
- Database : -
- Link : https://play.google.com/store/apps/details?id=com.rodealer2.ro_dealer2
- No. user : 1000 +
- Description : A system for XL Dealer Complaints with Android and Ios Apps

### Develop Web UI

#### 1. Project : Customer Complaint Web | Desember2019 - January2020

- Role : Cutomization Mobile Apps Android change UI and asset
- Team size : 1
- Platform : Mobile Huawei
- Programming Lang : PHP 7, Ajax JavaScript, CSS3, Bootstrap3, Laravel, API Service
- Web Server : Huawei Server
- Database : -
- Link : Internal
- No. user : -
- Description : A system for internal Customer complaint

## Experience Else | 2020 - 2025

### Develop Website

#### 8. Project : Sistem Kampus SIAKAD

- Role : Develop Frontend and Backend from zero
- Team size :1
- Platform : Website
- Programming Lang :Laravel, Lumen and Javascript
- Database :MySQL (workbench sql)
- Link : Internal
- No. user : 2000
- Description : SIAKAD (Academic Information System) is a digital platform that streamlines academic administration for students, lecturers, and staff. It manages grades, KRS, schedules, payments, and communication, providing efficient, real-time, and accurate data for a more organized academic process.

### Develop Apps Mechanic

#### 7. Project :Elangsung Club

- Role : Develop Frontend and Backend from zero
- Team size :1
- Platform : Android
- Programming Lang : Flutter(for mobile), Laravel(for dashboard), Lumen(for Rest API), Node.js(WhatsApp OTP), Javascript
- Web Server/ DevOps : Docker
- Database :MySQL (workbench sql)
- Link : https://play.google.com/store/apps/details?id=com.elangsung.club
- No. user : -
- Description : A system for invite mechanic, invite Store, update/verification account, scan barcode, get bonus(transfer to soldo digital money or bank ) integration with xendit

### Develop Apps PPOB(Payment Point Online Banking)

#### 6. Project : Kubayar

- Role : Develop Frontend and Backend from zero
- Team size :1
- Platform : Android and Ios
- Programming Lang : Flutter, Laravel, Lumen, Node.js, Javascript
- Web Server : Internal Server (VM Ware and centos 7)
- Database :MySQL
- Link : -
- No. user : -
- Description : A system for end user payment online

### Develop Whatsapp Bot and API Notification

#### 5. Project : Whatsapp Bot and API Notification

- Role : Develop Backend from zero
- Team size : 1
- Platform : Whatsapp API
- Programming Lang : Node.js
- Web Server : -
- Database :mySql
- Link :Internal: -
- No. user : -
- Description : A system for intraction Rest API to Whatsapp and blast notification

### Develop Website

#### 4. Project :IBOTA

- Role : Develop Frontend and Backend from zero
- Team size :1
- Platform : Website
- Programming Lang :Laravel, Lumen and Javascript
- Database :MySQL (workbench sql)
- Link : https://www.ibota.id
- Description : A system for Communication and Club Indonesian Beaches On The Air

### Develop Apps movie trailer

#### 3. Project : Filemku(Flutter)

- Role : Develop Frontend from zero
- Team size : 1
- Platform : Andriod and Ios
- Programming Lang : Frontend Flutter
- Web Server : Rest Api themoviedb,org
- Database : -
- Link :Internal: https://lnkd.in/ghBcHyXe
- No. user : -
- Description : A system for get real triler movie integrasion with API themoviedb,org

### Develop POS for Apotek

#### 2. Project : Hafizd Apotek

- Role : Develop Frontend and Banckend from zero
- Team size : 1
- Platform : Web Based
- Programming Lang : JavaScript, Laravel
- Web Server : Internal Server (VM Ware and centos 7)
- Database : MySQL
- Link :Internal
- No. user : -
- Job Description : A system for manage stock, manage user and transaction with barcode scaner print struck with thermal printer.

### Develop Apps mapping tracking and task notification

#### 1. Project : Mapping tracking and task notification(Flutter)

- Role : Develop Frontend and Banckend from zero
- Team size : 1
- Platform : Andriod and Ios
- Programming Lang : Frontend Flutter, backend Lumen
- Web Server : Internal Server (VM Ware and centos 7)
- Database : MySQL
- Link :Internal
- No. user : -
- Job Description : A system for Tim outside, traking location, get current location and get task notification

## PT Kepoo Solusi Indonesia | Agustus 2018 – September 2019

IT Staff ( Backend and Frontend Web Developer)

### Develop API Service

4. Project : Kepoo integrated | July2019 - September2019

- Role : Develop Backend
- Team size : 2
- Platform : Restful Api
- Programming Lang : PHP 7, Laravel and Lumen
- Web Server : Centos7 , Apache
- Database :MySQL
- Link : -
- No. user : -
- Job Description : A system for integrated product vendor (Bimasakti, Finnet,Ovo) to apps Kepoo.

### Develop API Service

2.. Project : Kepoo Retail Apps | October2018 - Desember2018

- Role : Develop Backend from zero
- Team size :3
- Platform : Restful Api
- Programming Lang : PHP 7, Laravel
- Web Server : Centos7 , Apache
- Database :MySQL
- Link :https://play.google.com/store/apps/details?id=retail.kepoo.com.kepooretail
- No. user :+- 10000 user (User Account )
- Description : A system for Transaction PPOB with Android Apps

### Develop API Service

3. . Project : Dashboard Kepoo | Jan2019 - September2019

- Role : Develop ( Backend and Frontend) from zero
- Team size : 2
- Platform : Web Based
- Programming Lang : PHP 7, Ajax JavaScript, CSS3, Bootstrap3, Laravel, Lumen
- Web Server : Centos7 , Apache
- Database : MySQL (backed up, Replicated)
- Link :https://dashboard.kepoo.id
- No. user :+- 10 user (User Account )
- Job Description : A system for operation Apps PPOB develop all feature

### Develop API Service

1. Project : Deposit Web | August2018 - September2018

- Role : Develop ( Backend and Frontend) from zero
- Team size : 2
- Platform :Web Based
- Programming Lang : PHP 7, Ajax JavaScript, CSS3, Bootstrap3, Laravel, Lumen
- Web Server : Centos7 , Apache
- Database : MySQL (backed up, replicated)
- Link :http://deposit.kepoo.id
- No. user : +- 30000 user
- Description : A system for Topup saldo Apps PPOB kepoo

## PT Amanah Karya Indonesia | November 2016 – April 2018

IT Staff ( Web Developer)
Develop Web and API Service

- Project :
  - Hobbytravel,
  - Web Bisatopup,
  - Admin Nguberjek(Ojek Online)
  - early warning system BSM (Bank)
  - Bisa Jualan (Store sales statistics)
- Role : Develop Frontend and Backend
- Team size : 3
- Platform : Web Based
- Programming Lang : PHP 7, Laravel and Lumen
- Web Server : Centos7 , Apache
- Database :MySQL ,SQLServer
- Description : A system for provides airline ticketing and hotel booking services online
